

## HINMAN 2013 BEGINS NEXT CENTURY WITH NEARLY 22,000 IN ATTENDANCE

As it embarked on another century of continuing education excellence, the 101st Thomas P. Hinman Dental Meeting attracted 21,872 dentists, hygienists, assistants, students and other dental professionals and industry personnel to the Georgia World Congress Center in Atlanta. The 2013 meeting featured more than 65 world-class dental experts; 220 courses, including more than 60 hands-on workshops; all-day educational tracks for dentists, hygienists, assistants and office staff; and 430 companies demonstrating the latest in dentistry.

“It was an outstanding meeting this year with strong attendance, a stellar educational program, an exhibit hall filled to capacity and Hinman’s signature social events that continue to excite and entertain our guests,” said Dr. Brad Greenway, General Chairman of the 2013 Hinman Dental Meeting. “We had more participation courses than ever before and many new speakers and topics for Hinman attendees to enjoy.”

This year, Hinman sold out its exhibit hall and featured a Classic Car Exhibit with beautifully restored cars owned by Hinman members. In addition, the hall hosted a Hinman Treasure Quest and a daily vintage jewelry giveaway. Also, 1950’s-inspired Hinman characters could be found on the show floor offering a chance to win prepaid gas

cards. The hall included Messages to Our Military where attendees completed nearly 2,500 postcards to be sent to servicemen and women overseas.

Dental student attendance has never been higher than the 2013 meeting. The meeting attracted 22 percent more dental students this year with a total of 1,086 students from schools across the country. Many took part in the Dental Student Networking Reception and panel discussion held on Friday afternoon, as well as the two special event parties, the Dentist Reception and Auxiliary Reception, held later that night.

Hinman attracted a total of 6,020 dentists, 4,468 dental hygienists and 2,890 dental assistants. Some of the most popular courses included Karen Davis’ “Think

## 2013... "Best Hinman Ever!"

Jim Roos  
President

Greetings,

First and foremost let's all congratulate our General Chairman Brad Greenway for delivering another "Best Hinman Ever." His attention to detail, as Dr. Hinman prescribed, paid off and made 2013 a huge success. Congratulations, Brad!

Max and Roy, "take a bow." The program you two delivered was outstanding and our guests received great value from the courses.

What a line up, from Pete Dawson, Gordon Christensen and right on down the line, quality, quality, quality! Great job to all of you.

Thanks to all Hinman members for your efforts toward the success of this meeting. Our guests left the opening session with a smile, attended interesting and valuable courses and were treated to exceptional hospitality. The overwhelmingly positive response we receive from our guests is the source of Hinman pride. It takes everyone doing their job with attention to detail to provide the Hinman experience. Speakers and guests continue to comment that Hinman is different from any other meetings they attend and it is because of our membership and the effort we give to our meeting.

at a later date.

We can all look forward to some fun coming up at our Annual Meeting at Château Élan June 7 - 9. Chairman Troy Schulman has been working with Laura Pope at the Hinman office to organize a great program for our families. This meeting is for family fun and relaxation and the Trustees generously subsidize our costs, including paying for one night's hotel stay. It's a great opportunity to meet other members and their families and have social interaction that we don't normally have a chance to get. Please make plans to come and enjoy!

Next up is Dr. Brian Carpenter and Hinman 2014. Let's all rally behind Brian and his program and continue Hinman's tradition of excellence.

It has been a privilege to serve as this year's Hinman Dental Society President. Thanks for the support and confidence you gave me. The guidance and encouragement I received from so many of my predecessors has been a blessing to me and I am grateful for their mentorship. I want to especially thank the Hinman staff: Sylvia, Lynn, Laura, Britney, Wendy and Ragan for their dedication, commitment and hard work. You women are the best!

I am proud to be part of such an outstanding organization. I hope that we can all realize, appreciate and embrace our society's mission and what we accomplish in its pursuit.

Thanks for a great year and see you all at Château Élan.

**Hinman 2013...  
The Tradition  
Continues**

Brad Greenway  
*General Chairman*

The Hinman Dental Society is to be congratulated on hosting the best dental meeting in the country. Every member should be proud not only of their membership in the society, but also of their contribution to the 2013 meeting. Your involvement and commitment to Hinman assure its success. Our meeting is often imitated but never duplicated. Other meetings cannot generate the same level of membership involvement that we do every year. Thanks again to every member who volunteered to work at this year's meeting. I also want to thank my two program chairmen, Drs. Max Ferguson and Roy McDonald. They deserve the credit for assembling a fantastic program that was well received. Thanks to the Committee Chairmen who commit to

three solid days of work and more in pre-planning. Everyone performed flawlessly. Thank you to the hosts as well. Our hosting is legendary amongst speakers and this year was no exception. Finally a BIG THANK YOU to the Hinman staff. Being General Chairman, I had the opportunity to witness the dedication, hard work, and competency of our staff. They are incredible.

It was an honor to serve as General Chairman in 2013. I have many fantastic memories and I am forever grateful to our society, my friends and family who made that possible. My advice to younger members is to become as involved as you

can. The returns on your time investment are definitely worth it. I consider myself lucky and fortunate to have served as General Chairman.

Hinman's 2nd Century is off to a fine start... The Tradition Continues!

## **Dr. Tom Moorman's Adventures in Pecan Farming**

My wife, Danelle, and I are from Coffee County, Georgia. Her family farmed for a living and my father grew up on a farm and was a veterinarian. As soon as I was big enough to draw water from a dug well with a rope and bucket, I became his after-hours and weekend veterinarian assistant, spending many hours treating farm animals with him. I grew to really admire the beauty of the large pecan trees that I saw around many of the farm houses we visited.

In 1978, my wife and I planted a pecan orchard on land that we purchased in Rockdale County. The Stuart pecan trees we planted took 30 years to become productive. I thought that by the time I retired from dentistry that the money would grow on trees and just fall to the ground, but boy, was I wrong. There were several obstacles I had to overcome before finally having a successful crop, including deer, leaf fungus and the hard work of watering the trees by hand.

## DR. REVIS BUTLER KEEPS ALIVE THE HERITAGE OF HIS GREAT GRANDFATHER WITH HIS MODEL RAILROADING HOBBY

Revis at his work table, building the turpentine still.

Dr. Butler's interest in railroading was developed through his great grandfather, Thomas Dowling, who purchased the Live Oak, Perry & Gulf railroad to carry logs from Hudson (on the Suwannee river) to his saw mill in Live Oak, FL in 1905. Thomas and his nephew, RL Dowling teamed up together with dreams of building a railroad on a westward path with hopes of reaching the Gulf coast someday. Once they started expanding their railroad lines, they also built a large saw mill, which became Dowling Park, FL and a waterworks in Live Oak, FL.

Their railroad eventually extended for 64 miles to Loughridge, FL, with 1917 being the most active year for the

The LOP&G wooden trestle over the Suwannee River. This structure is present on Dr. Butler's layout and still standing today.

railroad. By 1977, most of the trackage had been abandoned, although you can still see some remnants of their railroad in Perry, FL. The company was sold to Richard Sears, founder of Sears & Roebuck when Thomas died of leukemia. Today, the Dowling Park area is home of an outstanding retirement center, with conventional homes, assisted living, and nursing home facilities, where some of Dr. Butler's relatives have lived in recent history.

Today, Dr. Butler is an active member of the National Model Railroad Association, an association that is devoted to the development, promotion and enjoyment of the hobby of model railroading. He has been working on model replicas of some of the historic buildings from the LOP&G railroad line. He has already completed a turpentine still and plans to build other structures you can't find these days, so the kids of today get a glimpse of yesterday. Dr. Butler's model will be displayed on a layout tour in November of this year. For more information on the tour, you can contact Dr. Butler at [revisb@bellsouth.net](mailto:revisb@bellsouth.net).

### Dr. Tom Moorman's Adventures in Pecan Farming *(Continued from page 7)*

We finally had a small pecan crop in 2008. We picked the nuts up by hand with the help of some others. Our first large crop was in 2011, which we picked up using the help of a tree shaker and large tarp. In 2012, to help our efforts, I bought an air blast sprayer, harvester, and pecan cleaner. I also put an irrigation system in the orchard.

I have finally found a use for all the botany that I took as an undergraduate at Emory University. You have to learn a lot about plant physiology, plant pathology, horticulture and entomology to produce pecans. I wish that the government was as helpful to dentistry as it is to pecan farming. There are several helpful local resources I turn to, including the University of Georgia's pecan research center in Tifton, Georgia and the USDA SE Research Lab in Byron, GA.

You may like to know that pecans are a health food. Ninety percent of the fatty oils in pecans are heart-healthy. Pecans lower the blood cholesterol levels, contain 19 essential vitamins and minerals, and are an especially good source of antioxidants. So do not feel guilty when you eat your next piece of pecan pie.

Riding in my John Deere tractor can really relieve the stress I get from practicing dentistry. My grandsons Bo and Thomas Caves always look forward to helping Granddaddy Tom on the farm. My patients usually don't recognize me when they see me in my overalls or they just say, "I see you are not working today." I want to tell them one of my favorite quotes from Thomas Edison: "Most people don't recognize opportunity when it comes, because it's usually dressed in overalls and looks like work."
