FAQ

How soon will I have access to my presentations?

After you place your order, you will receive an email from Playback Hinman which includes your login information to access your Playback account. Once you log in, you will have access to stream or download your recordings as soon as they are available. Most sessions will be available 24-48 hours after they occur. To access your online recordings, you MUST always login to your account.

When will I have access to the handouts or reference materials?

Presenter handouts will be available online 7-10 days after the conference.

What is the fastest way to access my presentations?

The PlayBackNow Mobile App is the way to keep you on track. Access your lectures anywhere and on any mobile device. Best of all, it remembers your status no matter what device you use: laptop, phone or tablet. Go to the APP Store and download the Playback Now APP Today.

What is the difference between streaming and downloading?

Both streaming and downloading require internet access. Streaming-only requires constant internet access to receive the presentations. Downloaded files are stored on your device for easy access anytime-anywhere.

What is MP3 and MP4?

Get the most out of your MP3 Audio and MP4 AudioPoint Video formats. MP3 Audio will play on computers, laptops and CD Players that are MP3 compatible, plus your mobile device. You can easily burn audio CDs in iTunes. The MP4 AudioPoint Video will play on computers, laptops and your mobile device. MP4 AudioPoints are video files that feature session audio synced with PowerPoint for a virtual re-creation of the presentation. Unless noted, the file will NOT include the video of the actual presenter, just the PowerPoints.

What are other advantages to the USB Flash Drive?

The USB Flash Drive includes the Audio MP3 files, Video MP4 files, and the handouts, for easy transfer. The Flash Drive is menu-based so all you need to do is plug and play. Flash drives will also play MP3 audio files on cars with USB inputs.
