

New this year, the Learning Lab Co-Op debuts in the exhibit hall!

In this pavilion, obtain free CE from exhibitors and laboratory technician professionals presenting live demonstrations.

Highlights include:

Thursday - Exhibitors such as Henry Schein, Carestream, Atlanta Dental, Planmeca, 3M, 3Shape and others will conduct table-top presentations.

Friday - Master dental technicians will offer free CE and table-top presentations, including a live 90-minute head-to-head competition between two master technicians creating and matching a single central incisor crown under dental laboratory conditions. Come watch the impossible take place!
Josh Polansky, Al Hodges, Jim and Charlie Cassidy, and Bill Marais will also present.

Saturday - Attendees will hear from Patterson Dental and watch an E4D/Cerec side-by-side, live competition.

On Saturday, March 25, "Deliver the World's Most Beautiful Dentistry" at Lab Tech Day.
There is no fee for Course Sa360. Visit Hinman.org to register for the meeting.

Joshua Polansky | 8:30 – 10 a.m. | Wisdom is Not Measured in Teeth

This course covers how creating successful restorations for clients depends on having a restorative team that communicates and includes the patient, the dentist, the specialist and the technician.

Brian Carson | 10 – 11:30 a.m. | Re-Create Nature in Your Removable Prosthetics

This course presents occlusal concepts via the natural functional prosthesis and demonstrates natural wax up techniques that show the foundation that re-creates the beauty of nature.

Skip Carpenter | 1 – 2:30 p.m. | The Esthetic Handshake

This course covers topics crucial in day-to-day communication, as well as protocols necessary to create the esthetic handshake at a distance.

Al Hodges | 2:30 – 4 p.m. | Delivering Excellence to Our Patients

This course discusses the use of digital photography to market services to patients, to increase learning and participation for the dental team, to improve technical skills and to provide communication necessary to create beautiful and successful dentistry.
