9. Click the **Submit Payment** button.

Registration for this course will close Wednesday, April 14 at 6 p.m. EST.

A Zoom link will be sent to you by Thursday, April 15 at 1 p.m. EST.

Chin and Jawline Augmentation and Enhancement

Contribution of an esthetic jawline is a major factor in facial beauty. Age associated changes of the lower face include blunting of the chin, jowling and an interrupted jaw sweep. In addition to covering the anatomy and etiology of this area's age-related changes, we'll explain how to identify and correct defects of the facial lower third using minimally invasive techniques (*dermal fillers and neuromodulators*).

Program Eligibility

This course is appropriate for practitioners who have completed facial injectable foundational education that included live patient training. Foundational prerequisite knowledge is assumed and will not be covered in this program.

Course Objectives

At the end of the program the practitioner is expected to:

- Define areas of the lower facial third commonly affected by aging
- Explain the expected outcome of injectable treatments on the chin and jawline
- Discuss contraindications for dermal filler treatment in the facial lower third
- Describe the local vital structures in the common treatment areas of the lower face

CE Information

1.5 CE Hours

AGD Subject Code: 010 Basic Science

Dr. Gigi Meinecke has been active in the field of facial injectables since 2004. In 2013 she established “[FACES](#)” - providing education in cosmetic and therapeutic injectables to medical and dental professionals with its core focus on comprehensive facial anatomy. FACES is the only training offered in this discipline to regularly integrate cadaver study workshop with live patient injections. Dr. Meinecke is the author of the recently published book: "Start and Grow Your Cosmetic Injectable Practice." She is Faculty at the Boston University School of Dental Medicine where she teaches Facial Injectables and is the Course Director. Dr. Meinecke is past president of the Maryland Academy of General Dentistry and serves as a national spokesperson for the AGD. Dr. Meinecke served on the ADA Council on Communications and is its Immediate Past Chair. She is a Fellow in the Academy of General Dentistry, the International College of Dentists and the American College of Dentists. Dr. Meinecke maintains a full time practice in Potomac, Maryland.
