# It's a Busy New Year at Hinman

Pat Yancey, III

Thanks to all who attended our membership meeting November 17. Dr. Wenche Borgnakke reviewed the oral-systemic health connections. She had many pearls in her lecture to keep us abreast of our changing dental profession. The fellowship and food at the Ritz-Carlton were excellent. Our attendance was just north of 200 members.

As president, I had the privilege of attending the 20th Hinman Student Research Symposium at the Peabody Hotel in downtown Memphis, TN. Dr. Mustafa Dabbous, founder of this meeting, and Dr. Franklin Garcia-Godoy were wonderful hosts in the best of the Hinman tradition. There were 77 dental students from 47 dental schools in the United States and

three students from India, giving either an oral or a poster presentation. The students are extremely smart and we have invited the two winning students to our March meeting. Look for them in our Tables Clinics area. Our society is the primary sponsor for this event. We should be proud of the quality of this meeting. Dr. Dabbous made everyone present aware of the excellence of our March meeting. He is a constant promoter for the Hinman Dental Society.

The 2015 Hinman Meeting is right on the horizon. If you are not on a committee to work our meeting, please call the Hinman office to sign up. As you know, we require our members to work at least eight hours during our meeting. The fellowship with Hinman members while working the meeting is well worth your time. Committee meetings will be held soon. Registration for our meeting is well underway.

A further perk for working the meeting is our annual family meeting at the Grove Park Inn at the end of May. Please mark your calendars and make your reservation for this event. Attending is a great way to get to know more members.

Our next Membership Meeting will be January 29 at the Georgia Aquarium. This lecture is for the entire staff. Bob Gray, a memory expert, will entertain our staffs and our members. The program will begin at 4:30 with a buffet dinner to follow the lecture.

I would like to thank General Chairman Dave Lee along with Paul Isler and Jonathan Dubin, his program chairmen, for all of their hard work in putting together the 2015 Hinman Dental Meeting. We will all make this the best Hinman ever.

Lastly, I would like to thank our Trustees for subsidizing our meetings. Please take advantage of Hinman meetings. They are a true bargain!

## ACD & ICD INDUCTIONS

## General Chairman's Message

### Your Meeting Checklist for Success

Dave Lee

I hope everyone had a wonderful holiday season enjoying your faith, family and friends. Our March meeting is right around the corner, and although registration has been online since November and the pre-registration brochure should have arrived at your address in December, there is much to be done.

Number one: be sure to attend your committee meetings, and keep yourself eligible to attend the General Chairman & President's Reception on Thursday night of the meeting. This year's event is being held in the new College Football Hall of Fame. It's a great venue for all the family, not just the male football fanatics in the house. If you are not currently on a committee, please call the Hinman Office and join the fun.

Number two: schedule the classes you'd like to attend quickly. Many of the classes have limited attendance, and our program Chairmen, Paul Isler and Jonathan Dubin, have put together a fabulous educational program. We have 30 new speakers this year! We have lots of 1 hour and 1.5 hour lectures. We've created combinations of speakers covering nutrition, hygiene, business, implants, lab technicians and disturbing trends in dentistry. So share the program with your staff, and secure the classes you prefer early.

Number three: our theme this year is Foundation for the Future, and we've worked to create a number of programs for young dentists. The centerpiece program is the all day G.O.L.D. (Graduates Of the Last Decade) class on Friday. It is a tremendous line-up of speakers concentrating on practice ownership, quality dentistry and success in dentistry in the face of today's student loans and corporate dentistry

environment. Our primary goal is to create support and relationships for young dentists all over the Hinman region. Our registration allows you to sponsor young dentists to the program. If you pay the meeting registration fee (\$170) for each of the young dentists, and accompany them to the G.O.L.D. class, your admission to the class is free. (Any un-sponsored dentists can add the class to their schedule for an additional fee of \$150). You will sit at a table with your sponsored dentists. Lunch and a wine and beer reception at the end of the day are included in the sponsorship. It is a great opportunity to sponsor and support the future of dentistry, and your support is important to their success.

If you are a Graduate Of the Last Decade and do not have a sponsor, contact the Hinman office, where a limited number of sponsorships have been made available by your fellow professionals.

Number four: check out the Career Connections program on Saturday afternoon. If you or someone you know are looking for a possible associate or partner in a practice, you can register your information in the Hinman Meeting registration site. Young dentists and dental students will be able to view your information, and make 10-minute "Speed Date" appointments with you on Saturday afternoon at the meeting. For a nominal fee, Hinman will provide the interview booth and the schedule for you to efficiently and easily meet a number of potential associates in a professional environment.

Number five: check out Laboratory Technician Day, Hinman Study Club featuring GRU Faculty and the follow up G.O.L.D. lectures on Saturday. These are just some of the opportunities available at Hinman this year! We're excited about the future and this year's Hinman, so be sure to come and enjoy the 2015 Meeting. See you there.

# HINMAN STUDENT RESEARCH SYMPOSIUM 2014

(Continued from cover)

Executive Associate Dean for Research, and by Dr. Mustafa Dabbous, founder of the Symposium. Dr. Patrick H. Yancey III, President of the Hinman Dental Society, welcomed the participants, praised the Symposium organizers and the student participants, and presented an overview of the upcoming Hinman Meeting.

The keynote speaker at the Welcoming Banquet was Dr. Lawrence A. Tabak, Principal Deputy Director and Senior Investigator of the National Institutes of Health and former Director of the NIDCR. Dr. Tabak spoke on "The Top 10 Things I Have Learned," which included valuable insights on working with others, benefiting from the mentor-mentee relationship, and being guided by your data even when the results conflict with your understanding of how things work. Dr. García-Godoy encouraged the students to

remain active in research regardless of whether their career paths take them into dental practice or academics.

Eight awards were given for the most outstanding student presentations, four in clinical research and four in basic science research, in addition to an award from the National Students Research Group (NSRG) of the American Association for Dental Research. Awards were presented by Drs. Yancey, Hottel, García-Godoy, Dabbous and Robert Spears, Professor at the Baylor College of Dentistry and former Faculty Advisor to the NSRG. Offering additional support and encouragement to the students were Mrs. Julie Yancey, Dr. Mary MacDougall, Professor at the University of Alabama at Birmingham and Dr. John D. – Michael Pruett

**ALL IN THE FAMILY**  
 ACCOUNTS FROM  
 HINMAN MEMBER  
 SPOUSE TEAMS, *part 2*

Hinman members come from a variety of different locations and backgrounds. The society is lucky to have several spouse dentist teams working together in everyday life and also enjoying & working at Hinman functions. This article is part two of the series that shares the story of some of those couples and what having another dentist around the house is like.

**DRS. ROBBY & KATE ROBINSON**

Robby and Kate met when she was in hygiene school and he was in dental school. They had to plan their wedding date around the Georgia football schedule just to insure that Robby's classmates would show up! They have been married for 31 years this past November.

Kate says, "The biggest perk about having a dentist as a spouse is that he/she REALLY understands when you have had a bad day or a great day and he/she can help you with practice problems. We admire each other because I don't understand how he can work on children all day long and he doesn't understand how I can work on adults all day long!"

They enjoy traveling, cooking (but not necessarily together!), eating at wonderful restaurants, teaching the two year old kids in Sunday school and spending time with their girls.

**DRS. RUSSELL BOYD & SHURLANG YEN**

Russell and Shurlang met in dental school at MCG, but never dated while in school. They went their separate ways, but were reunited in the year 2000 when, by fate, their good friends, Jim Granade and Kathy Huber happened to invite both of them to the same Hinman membership meeting. They spoke that night, hit it off and made plans to meet for lunch later that week, and the rest was history! A beautiful daughter and 13 years of happy marriage later they can certainly thank Jim, Kathy, and Hinman for indirectly making it all possible.

They say, "we have both benefited from knowing how the other would handle various clinical situations as well as how the other manages the office." They one day plan to have a practice together, but do not currently. Shurlang has brought out the travel bug in Russell, and they have traveled much of the world together. Most recently, they enjoyed a family ski trip out west.

**DRS. RICHARD & BECKY WEINMAN**

The Weinmans met when Becky was a student at Dekalb Community College Dental Hygiene School (now Georgia Perimeter College) and Richard had the daunting responsibility of being the supervising dentist for the class. They have been married for 34 years. A perk for them to having a spouse dentist is if the kids were sick, there was someone to cover. Becky says that "a frustration is a lot of dental conversation. If you ask our son, he would tell you he learned the tooth numbers at the dinner table, which could be a perk since he is applying to dental school!" Richard and Becky practice together. They enjoy working in the yard, planting and watching things grow! They have also started taking more time away from the office to travel within the United States.

## Welcome to Your Brain Three Hour Interactive Memory Development Workshop

What do these three famous leaders all have in common? Bill Clinton, Theodore Roosevelt, Napoleon Bonaparte  
They each posses(ed) an incredible memory!

*How good is yours?* If only there was an instruction manual for our brains. Think of Bob's session as that instruction manual you have long been missing. With it you will learn to take advantage of options that have been so often ignored, such as the incredible power of your memory. By increasing your ability to remember, you will find other aspects of your business life will likewise be improved. New memory strategies will lead to increased confidence, awareness and mental organization, leading to more effective leadership.

In addition, Bob will reveal a wonderful method to easily triple your recall and store into memory the names of patients, new friends and business acquaintances.

Having been taught the system, participants are quickly and easily able to recall both first and last names of several new acquaintances as they are introduced during the presentation. A fun interactive system...and it works!

Bob will also share how to take advantage of Facebook, LinkedIn and Twitter, to enhance your own "personal computer" and its "hard drive" and increase its power and abilities further.

## BOB GRAY BIOGRAPHY

Bob Gray has amazed, entertained and educated audiences across six continents with his incredible memory demonstrations, entertaining keynote presentations and sales oriented, self-improvement workshops. His unique abilities have netted him a place in the Guinness Book of World Records and TV appearances on Ripley's Believe It Or Not, The NBC Today Show and The Steve Harvey Show. Bob's techniques provide his audiences with the keys to unlock their memory potential, and the ability to work more efficiently, effectively, professionally and ultimately, more profitably.

He is a CSP, Certified Speaking Professional; the highest earned designation in the speaking profession and in 2006 was inducted into the Canadian Speaking Hall of Fame.
