Raising money for scholarships & giving away great prizes

This year, you have an opportunity to give back to your profession like never before at Hinman and you could win Big! Hinman is sponsoring a raffle and proceeds will be used by the Hinman Trustees to fund dental scholarships. Tickets can be purchased during the registration process (for Georgia residents) or onsite in the registration area. Raffle ticket sales will end on Friday, March 28 at 5 p.m. The drawing will be held Saturday, March 29 at 11:30 a.m. onsite in front of the registration area. Ticket holders need not be present to win. Please review all terms and conditions on the Hinman website.

★ Tickets are \$100 each or 6 for \$500 ★ Only 700 tickets will be sold ★

Great Prizes:

GRAND PRIZE

Winner's choice of: 3 year, 10,000 mile/year lease on 2014 Audi TT Convertible

OR

\$20,000 cash equivalent

2ND PRIZE

\$2,000 Ritz-Carlton Gift Certificate

3RD PRIZE

\$1.000 Cash

Early-bird drawing: \$500 Cash

Purchase your raffle tickets by February 27, 2014 and be eligible for a \$500 prize! The winner will be chosen & notified on March 1, 2014.

Frontline TMJ Syndrome, Facial Pain Therapy and Trigger Point Injections for Every Dental Practice Full-Day Course

Plan to join us on Wednesday for this course

Dr. Louis Malcmacher Course We100 8 a.m. – 5 p.m. (one hour lunch break)

D H A

Registration Attendance is limited to 50 participants **Dentists: \$1,500** (Any Dentist who registers for this course must pay Dentist fee – will not be considered staff or team member)

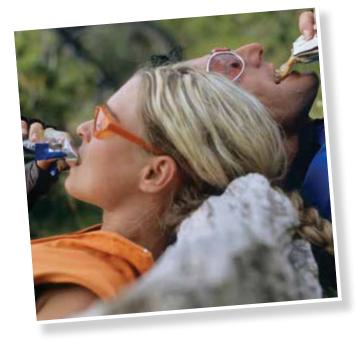

Staff/Team: \$295

Many patients have some mild to moderate level of facial pain, whether it is from headaches, migraines, stress, occlusion or TMJ dysfunction. This pain presents a diagnostic dilemma for most dentists who don't even know where to begin with these patients. It gets even more confusing when you treat the patient with a bruxism appliance, equilibration or even a reconstruction and the pain still exists. There are some missing links that you will learn in this course that will make your dental practice the frontline primary healthcare professional for TMJ and myofascial pain patients.

Here is the first real down-to-earth and common sense hands-on course for every dentist that will teach you step by step how to successfully treat myofascial pain and TMJ syndrome. With these nonsurgical, reversible and minimally invasive techniques, your office can add these important services to your practice immediately in ways that are economical and easy to deliver. You will learn how to use the right tools to provide frontline treatment options and stop ignoring patient pain complaints. This course is designed for the dentist and the entire dental team so that all will understand their role in treating facial pain in your office.

COURSE OUTLINE:

- How to quickly identify and diagnose TMJ syndrome and facial pain patients in your practice
- A step-by-step, comprehensive patient examination and evaluation including a maxillofacial neurological exam, otic exam and a thorough head and neck muscle examination
- Learn why you should not spend a dollar on expensive equipment for frontline TMJ syndrome and facial pain diagnosis and treatment
- Learn the two most important tools used to diagnose myofascial pain
- Understand the role of occlusion in myofascial pain don't suffer from occlusion confusion any more.
- Simple, easy ways to quickly identify if myofascial pain is coming from the TMJ, neuralgia, ear, eyes or muscles

- Trigger point injections learn how to precisely identify and inject trigger points for instant and long term pain relief
- Understand when and how to use different chemotherapeutics for best short-term and long-term therapeutic outcomes
- Learn when to treat and when to refer myofascial pain patients
- Common sense diagnosis treatment planning for TMJ syndrome and facial pain patients
- When bruxism appliances are essential and when they are
- How to integrate these services into your practice immediately
- Observe treatments on many patients during the day
- One-on-one comprehensive mentored instruction as you work hands-on with your patient

COURSE OBJECTIVES:

At the completion of this course, attendees will be able to:

- List the most important, new, innovative and potentially useful concepts in the diagnosis and treatment of TMJ and myofascial pain
- Be able to perform a proper and thorough TMJ and head and neck muscle examination
- Identify whether a patient is a good candidate for the different treatment options for facial pain
- Conduct a thorough patient assessment and prepare a treatment plan for TMJ and myofascial pain patients
- Describe current concepts in pain management in the oral and maxillofacial areas

9 – 11 a.m. Hall Open for Dentists Only

11 a.m. – 5 p.m. Hall Open for All Attendees

Millineum Gate, Atlantic Station

PARTICIPATION COURSES

Botox Training and Dermal Filler Training Level I Course

Two-Day Course

Dr. Louis Malcmacher Course Th101 8 a.m – 5 p.m (one hour lunch break)

Continues on Friday from 8 a.m. – 5 p.m.

D H A

Registration Attendance is limited to 50 participants

Dentists: \$2,995 (Any Dentist who registers for this course must pay Dentist fee – will not be considered staff or team member)

Staff/Team: \$590

<u>Additional Charges</u> Paid during the course Botox vial: \$545 each (price subject to change)

Dermal filler syringe: \$301.50 each (price subject to change)

The American Academy of Facial Esthetics (www.facialesthetics.org) will contact attendees prior to the course with pre-course information on choosing a model patient and other pertinent items. Paid attendees may participate in all 16 hours of the course. Attendees who are participating as patients will be allowed in the patient-treatment session only.

The American Academy of Facial Esthetics is proud to be the only anatomically-based training of non-surgical, minimally invasive, facial injectable program of its kind so that clinicians will feel confident in immediately integrating these services into their practice.

This course is recognized as a board-approved postdoctoral course by the Georgia Board of Dentistry.

COURSE OBJECTIVES:

- Patient assessment and consultation for botulinum toxin (botox/dysport) and dermal fillers
- Indications and contraindications for these techniques
- Anatomy of the head, neck and in-depth instruction in the oral and maxillofacial structures including the neurophysiology, musculature and circulatory system
- Physiology and pharmacology of oral and maxillofacial injectable treatment
- Review of sterile technique as it relates to the use of injectable pharmacologic agents
- Safety and risk issues for botulinum toxin and dermal fillers injectable therapy
- Integrating botulinum neurotoxin and dermal filler therapy into therapeutic and esthetic treatment plans

- Botulinium toxin therapeutic treatment of migraines, TMJ syndrome, facial pain and bruxism cases
- Beautiful lip enhancement and how to avoid giving your patients "duck" lips
- Enhancing the cupid's bow to create a beautiful lip
- Volumizing the nasolabial folds, marionette lines, mentalis region and lifting up the corners of the mouth using anatomical landmarks
- Smoothing lip lines and eliminating vertical "smoker's" lines
- Best treatment techniques including anatomical muscle sites, muscle depths, proper preparation and dilution for the best oral and maxillofacial esthetic outcomes
- Knowledge of possible adverse reactions, how to avoid adverse reactions and management and treatment of possible complications
- Patient evaluation for best dentofacial esthetic and therapeutic outcomes
- Live patient hands-on training including diagnosis, treatment planning and proper dosing and delivery of botulinum neurotoxin (botox, dysport and xeomin) and dermal fillers
- Proper fee structures for oral and maxillofacial injectable treatment
- Customizable office forms and informed consent needed to begin treating patients immediately
- Review of state board laws
- Assist in securing malpractice liability insurance
- Observation of many model patients during the day
- One-on-one comprehensive mentored instruction as you work hands-on your model patient
- Understanding and incorporating oral and maxillofacial treatment into your daily practice

Invisalign Fundamentals

Course Th102 8 a.m. - 12 p.m.

D H A OS

Fee: \$1695 Attendance is limited to 80 participants

Invisalign Fundamentals is a two-part program for any general practitioner provider who would like to offer Invisalign in their practice. The program provides dentists and team members with the necessary education and tools to treat patients with Invisalign. Invisalign Fundamentals is a two part program comprised of an online course (covering the fundamentals of starting an Invisalign case), and an instructor-led live course (focusing on clinical education and offering hands-on training modules).

Dr. Sarah Conroy Course Th103 8 - 11 a.m. Course Th104 1 - 4 p.m.

Repeats on Friday (Fr142)

DHA

Fee: \$135 Attendance is limited to 30 participants

Obtaining Accurate Alginate Impressions

This hands-on workshop teaches current techniques for taking excellent alginate impressions and for model pouring. Learn how to properly prepare the patient, as well as the criteria for alginate tray selection and preparation. Proper mixing techniques, when/how to use adhesives, and the loading, seating, removal and inspection of impressions will be presented.

Dr. Christopher A. Hooper Course Th105 8:30 – 11:30 a.m.

D ST

Fee: \$300 \perp Attendance is limited to 24 participants

Anterior Esthetics

This course will give you the hands-on opportunity to prepare teeth, make impressions, place direct composite resin and make provisionals. Among the topics presented will be smile design and diastema closure, anterior restoration selection, retraction options, impression tips, choices for the crown material, cementation vs. bonding and direct composites. Take advantage of this unique format to improve your skills in this critical clinical area.

Introduce New Laser Technology in a Periodontal Environment

Ready to enter the laser world or perhaps have one "unused" in the closet? Use this hands-on experience with lasers and pig jaws to understand laser therapies ranging from crown-lengthening procedures to treatment of periodontitis. Case reports demonstrating success will be utilized along with clear contraindications. This course introduces incorporating a laser into your dental practice, considering patient acceptance and third-party coding.

Dr. Brad J. Potter

Course Th107 8:30 - 11:30 a.m.

Course Th108 1 - 4 p.m.

Repeats on Friday (Fr144)

D H A

Fee: \$170 Attendance is limited to 30 participants

Radiographic Imaging in the Dental Office – Improving Our Techniques

Imaging in dentistry has undergone a revolution in the past decade with the transition to digital imaging and the introduction of new imaging techniques. Use this presentation and participation course to strengthen your diagnostic acumen and enhance your skills in dental imaging. The ultimate goal of accurate diagnoses and quality patient care is still at the forefront of our day-to-day activities.

Cardiopulmonary Resuscitation Re-Certification

Course Th109 9 a.m. – 12 p.m. Course Th110 1:30 – 4:30 p.m.

All Attendees

Fee: \$75 Attendance is limited to 75 participants

The American Heart Association (AHA) has significantly changed the standards and techniques for CPR re-certification. Everyone previously trained in CPR now needs to know the new methods. This course is designed for those needing CPR re-certification; it is not for someone learning CPR for the first time. It will include a written exam and handson practice. You must have had CPR training within the last three years. Successful completion of each testing station and the written exam is necessary to satisfy license requirements. A study guide is sent in advance to those attendees who pre-register. Participants should review this material prior to arrival.

Note: Certification is valid for two years.

Ms. Nancy Andrews Course Th111 9 a.m. - 12 p.m.

Repeats on Friday (Fr150)

D H A

Fee: \$145 Attendance is limited to 40 participants

Infection Control Workshop

In this lively, interactive, hands-on workshop, experience different infection control techniques and products! Go home with a bag of samples and many new ideas! Learn infection control concepts and how to evaluate products and techniques for hand hygiene, surface cleaning and disinfection, equipment and instrument asepsis and personal barriers to get maximum effectiveness from your infection control efforts.

Dr. Lee H. Silverstein Course Th112 9:30 a.m. - 12:30 p.m.

Repeats on Friday (Fr147)

D A ST

Fee: \$270

Attendance is limited to 30 participants

Atraumatic Extraction and Socket Grafting for the General Practitioner

This hands-on course makes it easy to remove teeth while saving the bony socket. Learn

how to use regenerative barriers in a cost-effective and userfriendly way. This course will show you the how, when and why of socket grafting in a trademarked, easy-to-understand fashion.

Preventive Equipment Maintenance Course Th113 9:30 a.m. - 12:30 p.m. Course Th114 1:30 - 4:30 p.m.

Repeated on Friday (Fr136 & Fr137) & Saturday (Sa163)

All Attendees

Fee: \$95 Attendance is limited to 48 participants

Service technicians from local dental supply companies will cover basic preventive maintenance and safety requirements for dental office equipment. Learn how to properly maintain the following: air compressors, vacuum systems, autoclaves, cavitrons, prophy jets, handpieces, x-ray processors and digital sensors. Also, learn how to change o-rings in a leaking air/water syringe and solve many other maintenance issues that exist in every dental office.

Dr. Robert R. Edwab Course Th115 12 - 3 p.m.

Repeats on Friday (Fr138)

D ST

Fee: \$350 Attendance is limited to 28 participants

Hands-On Oral Surgery Workshop for the General Practitioner

This hands-on course will give you the chance to broaden your scope of practice by making oral surgery more enjoyable and more predictable. Learning step-by-step techniques, you will use fresh pig mandibles for soft tissue surgery and suturing. Learn proper use of cowhorn and ash forceps, and rongeurs for extractions, alveoplasties and root removals.

Mr. Imtiaz Manji & Dr. Darin O'Bryan Course Th116 12 - 3 p.m.

Repeats on Friday (Fr132)

D A ST

Fee: \$320 Attendance is limited to 20 participants

Hands-On Digital and CAD/CAM Dentistry using CEREC **Technology**

Use this limited-attendance, hands-on program to experience the practice-transforming technology driven by CEREC in the contemporary digital practice. See the value of CEREC to support case acceptance in today's consumer environment. Then, perform a complete handson clinical process with CEREC and digital fabrication of a restoration. Learn about the clinical application of CEREC in your practice and how CEREC integrates with contemporary patient treatment needs.

Note: Participants will be matched two per CEREC unit.

Invisalign Intermediate Course Th117 1 - 5 p.m.

DENTISTS ONLY

Fee: \$199

Designed for the general practitioner who is interested in treating more difficult Invisalign cases, Invisalign Intermediate will explore advanced Invisalign principles, tips, and techniques. You will assess cases commonly seen in a typical general practice, and will learn how to take full advantage of the Invisalign system to achieve excellent clinical outcomes.

Note: Attendees of the morning session of Invisalign Fundamentals will have no experience starting, treating, or finishing with clear aligners, thus it will prove difficult for them to follow along and understand the applicability of the content of this course. It is recommended that those attendees take the Invisalign Intermediate course at a later date.

Dr. Mark T. Murphy Course Th118 1 – 4 p.m.

Repeats on Saturday (Sa157)

D

Fee: \$315 Attendance is limited to 24 participants

Immediate Load Implant Retained Overdentures: An Evidence-Based Protocol

Use this hands-on experience to familiarize yourself with the research, development and implementation of simplified small diameter implant placement in your general practice. Learn an evidence-based and risk assessment protocol for placing and restoring immediate load implants and complete the overdenture prosthetics (featuring Sterngold ERA implants). You will place implants and perform the prosthetic steps on simulated mandibles and mock complete denture set-ups.

Dr. Thomas G. Wilson Course Th119 1 – 4 p.m.

D

Fee: \$645 Attendance is limited to 10 participants

Hands-On Implants in Cadavers

By using fresh (frozen) cadaver heads, this course offers attendees the closest possible approximation to working on patients. The initial part of the course features didactic information on crown lengthening, socket preservation, guided bone regeneration (ridge augmentation), implant placement and a variety of other topics related to prosthetic and implant dentistry. Attendees are then able to practice these skills in a laboratory setting.

Note: Course Th209 is a prerequisite for this course.

Ms. Nancy Andrews Course Th120 1:30 – 4:30 p.m.

D H A ST

Fee: \$130 Attendance is limited to 30 participants

Instrument Sharpening: Never a Dull Moment

This course is guaranteed to keep you on edge. With a keen eye and precise control, learn how to create exquisitely sharp edges, preserve original instrument design and shape by using a variety of hand and mechanical techniques and devices, loupes and lights. You will leave with new instruments, as well as an understanding of the key geometrical relationships between instrument surfaces and edges – important for all sharpening techniques.

Dr. Robert C. Margeas

Course Th121 1:30 - 4:30 p.m.

Repeated on Friday (Fr126) & Saturday (Sa170)

D

Fee: \$295 Attendance is limited to 25 participants

Creating Esthetic Masterpieces with Composite Resins

The best way to learn direct composites is hands-on instruction. Experience placing a direct composite veneer that can rival porcelain. Layering, finishing and polishing will be demonstrated both step-by-step with immediate feedback and in detail with a live video demonstration of proper anatomy, surface texturing and polish.

Ms. Shannon Pace-Brinker
Course Th122 1:30 - 4:30 p.m.

H A

Fee: \$195 Attendance is limited to 25 participants

The Art of Clinical Photography

A picture is worth a thousand words. When we take photos in our practice, we don't have to say anything. It is so much easier to show patients so they are able to visualize the key points of the treatment plan. This program is designed to introduce you to the exciting world of dental digital photography, showing you how to take images like a true professional! Gain practical, hands-on experience that will demonstrate to you the benefits of including digital photography in your practice.

ADAA Assistants' Seminar Course Th123 2 - 5 p.m.

Repeated on Friday (Fr134 & Fr135) & Saturday (Sa162)

A

Fee: \$60 Attendance is limited to 50 participants

Learning in the Round

This seminar is created especially for the dental assistant. Don't miss this hands-on opportunity to learn about new products, updated techniques and services available and share ideas with other dental assistants in this fun, small group setting. You will come away energized, with product samples for your office and the possibility of great door prizes for yourself.

Different topics are covered at each session so register early, as this small group fills up fast. Non-ADAA member dental assistants will receive a free six-month membership in the American Dental Assistants Association courtesy of the Hinman Dental Meeting. Current members will receive a special gift, so be sure to bring your ADAA membership card with you.

Ms. Laci L. Phillips

Fee: \$120 Attendance is limited to 100 participants

Charting the Course to an Electronic Office with Eaglesoft

Bring your laptop, iPad or tablet and dig into Eaglesoft for a three-hour, hands-on lab designed for the entire team. Network with other Eaglesoft users while learning more about using your software in a reduced paper/chart-free environment and how it can help take your practice to the next level.

Ms. Laci L. Phillips

Course Th201 1 - 4 p.m.

All Attendees

Fee: \$120 Attendance is limited to 100 participants

Charting the Course to an Electronic Office with Dentrix

Bring your laptop, iPad or tablet and dig into Dentrix for a three-hour, hands-on lab designed for the entire team. Network with other Dentrix users while learning more about using your software in a reduced paper/chart-free environment and how it can help take your practice to the next level.

HYGIENE, HEALTH AND HAPPINESS

8:30 a.m. - 4 p.m.

Course Th202

DHA

Fee: Dentists \$100, All others \$70

Ms. Rachel Wall

NEW Speaker

8:30 – 9:30 a.m.

Profitable Perio: Three Mistakes That Could Be Costing You Thousands

Discover the three most common mistakes that when corrected can easily triple the amount of perio therapy you're performing, reduce stress, and set you apart as a true healthcare professional. You'll hear the latest data about periodontal disease science to help you overcome old beliefs and a negative mindset about perio and develop tools to establish a common Standard of Care by introducing a higher level of periodontal diagnostics into your daily practice.

Dr. Ann E. Spolarich

NEW Speaker

9:30 – 10:30 a.m.

An Update on Antibiotic Premedication

Indications for antibiotic premedication to reduce risks for infection associated with invasive dental procedures remain an ongoing debate among dental and medical professionals. Learn about findings gained from research that support when antibiotic coverage is and is not necessary. Weigh the risks and benefits of antibiotic use, and learn how to interpret revised recommendations for managing patients with prosthetic devices. This course will help participants make better decisions to treat at-risk populations safely in the dental care setting.

Ms. Eva Grayzel NEW Speake

10:30 - 11:30 a.m.

Tongue Tied: A Story NOT Silenced by Oral Cancer

One person dies every hour of every day in the U.S. from oral cancer. Eva Grayzel came close to being a "one" in this statistic. The riveting details about Eva's delayed diagnosis stimulate thinking about enhancing patient care with a high standard of oral cancer screenings. Learn to integrate thorough screenings with patient education, save lives with early detection and communicate the value of services to your patients.

Dr. Samuel B. Low

1 - 2 p.m.

Enhance Your "Bottom Line" through Effective Periodontal Maintenance

Change the traditional recall cleaning appointment into a major practice growth center. Move into a revitalized patient encounter by maximizing every moment of the 60-minute encounter, achieving restorative case acceptance in the RDH chair, vendorizing the operatory to ensure compliance with product and building relationships for long-term patient success.

Dr. John A. Svirsky

2 - 3 p.m.

Great Cases with New Faces

Join this interactive course of Dr. Svirsky's most interesting recent cases in oral pathology. Participants will help diagnose oral lesions. Some unusual "things" might pop up! Many new cases have been added, and a good time is to be had by all.

Ms. Judy Bendit

3 - 4 p.m.

The Myths, Legends and Realities of OTCs

Explore all the myths, legends and realities of toothbrushes, toothpastes and mouth rinses. Look at vintage commercials and evaluate how they have shaped our current philosophies and made it more challenging for us to get the right products into the hands of our patients. This course will leave you questioning many advertisements and making wiser decisions for yourself and your patients.

THURSDAY, MARCH 27 |

Dr. James Cassidy & Dr. Thomas R. McDonald Course Th203 $\,$ 8 – 11 a.m.

All Attendees

Fee: Dentists \$80, All others \$50

Application of Fundamental Restorative Principles to Fixed and Removable Prosthodontics

Complex cases that involve considerable alteration of the occlusion can be challenging for the restorative dentist. Missing teeth, implants, and the prospect of removable appliances can add another layer of complexity. This session outlines fundamental restorative principles and a protocol for treatment planning and restoration of cases from completely fixed, to partially edentulous, to fully edentulous.

Dr. Gordon J. Christensen Course Th204 8 – 11 a.m. All Attendees

Fee: Dentists \$80, All others \$50

The Best Methods to Restore Single Teeth from Simple to Complex

Most restorative dentistry is for single tooth problems. This evidence-based course starts with minimal restorations and ends with crowns. Hear the latest

about tooth preparations for intracoronal restorations, partial, and full crowns, new and better bonding agents, and how to best desensitize and disinfect tooth preparations. Compare current brands of resinbased composites, and the differences between zirconia, zirconia-based, lithium disilicate, lithium silicate and the older but still good full-ceramic crowns.

Social Media 101

If you have never used Facebook or have very little experience with social media, this is your opportunity to learn the difference between personal profiles and business pages, and which is best for marketing your practice. Experience a basic tour of the most important social media platforms. Learn about the unique marketing benefits each has to offer, and how these tools can help enhance your reputation. Leave the program with an understanding of basic social media strategies you can put into place right away for general or specialty practices.

Ms. Judy Bendit Course Th315 9:30 a.m. - 12:30 p.m. **All Attendees** No Fee

The Myths, Legends and Realities of OTCs

Join us for this fun and interactive program where we explore all the myths, legends and realities of toothbrushes, toothpastes and mouth rinses. We will look at vintage commercials and evaluate how they have shaped our current philosophies and why we are so challenged with getting the right products into the hands of our patients. This course will leave you questioning many advertisements and making wiser decisions for yourself and your patients.

Desperate Dental Divas - Diabolical or Divine?

Working with others is challenging. Are you frustrated or fulfilled? Optimizing your work environment is essential for everyone's success and well being. Even though women are known to be nurturing and helpful, working together can be as fraught with conflict and unresolved issues for them as it is for men. Why is it so hard? Increase your understanding of the underlying dynamics that can create conflict as well as create understanding and cooperation. Clearing the air is powerful. Don't wait another minute!

1 hour

DANB Forum Course Th317 10 – 11 a.m. Course Th318 1 - 2 p.m.

No Fee

The entire dental team is invited to attend The Dental Assisting National Board, Inc. (DANB) forum. DANB will present information about its national certifications: Certified Dental Assistant (CDA), Certified Orthodontic Assistant (COA), Certified Preventive Dental Assistant (CPDA) and other program and policy updates. DANB will discuss state activities and the requirements dental assistants must meet to perform additional duties or expanded functions. Attendees also will learn about e-learning opportunities through the DALE Foundation, the official DANB affiliate and receive gifts and giveaways.

Patient Management, Diagnosis and Treatment Planning

The ability to diagnose, develop a treatment plan and present treatment will, to a great extent, determine success. Understanding occlusal disease and esthetic problems and how to treat them is necessary to achieve long-term results for our patients. However, nothing happens until the patient says yes. Learn practical principles of occlusion and esthetics along with a system of patient management that works.

Ms. Rosemary Bray Course Th320 1 – 4 p.m. All Attendees No Fee

Teamwork! It Makes Your Dental Dream Work!

Teamwork can increase productivity and self-esteem, enhance appreciation, improve communication and make work fun. Gain insight into positive characteristics to seek in potential employees, negative characteristics to avoid, the expected role of the doctor on the team and ways to gain team commitment and continue motivation.

Dr. James Cassidy Course Th321 1 – 4 p.m. D A LT

Dr. Ashleigh Rosette 9 – 10 a.m.

Leadership and Decision Making: A Business Perspective

Leaders spend much of their time solving problems and making decisions. Use this session to help you make the best decisions possible with available information. Learn from an associate professor at Duke University, Fuqua School of Business. You will improve your analytical abilities in understanding decision-making processes and learn how to evaluate the costs and benefits of alternative actions. Dr. Rosette's years of experience teaching negotiations and leadership will be invaluable in your development as a leader.

Ms. Lois J. Banta 10 – 11 a.m.

Total Team Concept for Effective Scheduling

Frustrated by holes in your schedule? Experience the joy of effective scheduling to boost production and reduce stress. Minimize last-minute cancellations, procedures that take longer than expected, grumpy patients in the reception room and grumpier staff members blaming one another (or the dentist). Good scheduling guarantees a happier practice.

Dr. Lawrence F. Emmott 11 a.m. – 12 p.m.

Google Juice for Dentists

In 2014, a website for your practice is no longer optional. Like it or not, people will judge you based on your Internet presence and your online reputation. This program will show you how to develop Web pages that patients like and, even more importantly, how to use Google so patients will get to your site.

Lunch is on your own from 12 - 1:30 p.m.

Ms. Janice Hurley-Trailor 1:30 – 2:30 p.m.

Optimal Image Impact

Impact the success of your practice by learning to look at your website, team, and office through your patients' eyes. Put your best foot forward and make the first and lasting impression of your practice the best possible. Apply the science of body language, verbal skills and the power of visual impact to enhance your success.

Ms. Judy Kay Mausolf 2:30 – 3:30 p.m.

Drama Queens, Pot Stirrers and Problem Makers

Elevate the attitude in your practice! Do you have any team members with toxic attitudes? Toxic attitudes can undermine open communication, patient experience, treatment acceptance, performance, teamwork, job satisfaction and ultimately the bottom line. Learn how to transform toxic attitudes into tremendous attitudes and have fun doing it.

Dr. Mark T. Murphy 3:30 – 4:30 p.m.

Improving Case Acceptance: Helping Patients WANT What We Know They NEED

Use excellent communication skills to help your patients say "yes" more often to you and your treatment plans. Improve the educational value of the examination experience and overcome the insurance entitlement behavior that patients often exhibit. Help more patients have better health, do more of the dentistry that fulfills and stimulates you, and be more successful in your practice.

Risks in Esthetic Dentistry

In our litigious society, dentists need to be aware of risks vs. rewards, not only in diagnosis and treatment but also in deciding whether to accept a patient. Discover the risks in restorative rather than interdisciplinary dentistry, not evaluating the patient's staining potential, making too-white veneers in a protrusive patient and assuming you can do better. Look at informed consent, non-compliant patients, not wearing night guards and fractured porcelain, undiagnosed day Bruxism, and finally, one of our newest risk vs. reward issues: Botox.

Investment Strategies Immediately Prior and Post Retirement

As doctors approach retirement, their risk tolerance normally changes as they have now accumulated enough investment assets to enjoy a comfortable retirement. Not only do they become more conservative in their investment approach, doctors often become less confident in making important planning and investment decisions during the prior and post retirement years. There are many complicated decisions during these years that doctors must make correctly. This informative course is designed to help provide answers to those tough questions doctors will face as they transition through the prior and post retirement years.

Optimal Esthetics in Economically Challenging Times

The Compromised Implant Site: Strategies for **Restorative Success**

No matter how successful you have been in the past, your next new patient could be the one esthetic or functional failure you've been dreading! For three reasons: today's patients are much more technologically savvy, they expect more than ever before and – the most troubling of the three – they are becoming more litigious. Discover the advantages of all-ceramic restorations. Dr. Goldstein will share his secrets to success, drawn from 50 years of experience in esthetic dentistry.

The management of esthetically critical defects, relatively simple when the prosthetic transition is hidden from view by the lips, may actually be rendered more difficult by grafting procedures. Despite improvements in hard and soft tissue augmentation techniques over the past decade, many post-grafting results remain less than ideal. Discover more predictable esthetic outcomes resulting from a modified approach to current grafting concepts. A rationale for a paradigm shift to prosthetic tissue management (when appropriate) will be detailed.

Pain Management, Pharmacology That Works!

Prescribing the best medication requires the clinician to know the pharmacology of the drug and its desired and undesirable side effects. This clinically relevant review will enhance your knowledge, including major drug interactions involving pain medications, the side effects and mechanisms of action involving non-steroidal anti-inflammatory drugs and narcotics.

Mr. David L. Meinz

Course Fr345 1 – 4 p.m.

A Simulated Malpractice Court Case Presented Live

Have you ever wondered what it would be like defending yourself in a malpractice lawsuit? This will be your opportunity to find out exactly what takes place in court without going through the incredible anxiety and tension that surrounds these lawsuits. Attend this dental malpractice trial simulation using records and transcripts from an actual trial. You will see the types of questioning that you would face, understand the importance of your documentation and that it is much better to manage your risks in your office, rather than in the courtroom.

Dr. J. William Robbins

Course Fr347 1:30 – 4:30 p.m.

The Six Tools - Putting the Teeth in the Middle of the Smile

Providers of anterior restorative dentistry can no longer depend solely on dental laboratory technicians to ensure a beautiful esthetic result. The dentist must prepare the "landscape" to accept the restoration. This may involve lengthening or shortening incisal edge position and moving the gingival position. Learn to dynamically transform the periodontium to ensure the most esthetic result. We will consider esthetic and functional crown lengthening surgery, root coverage, forced eruption, orthodontic intrusion, orthognathic surgery and Botox.

Note: Course Th308 or Fr335 is recommended prior to attending this course.

Pharmacologic Management of the Geriatric Patient

Review characteristics and disease trends among the aging population, as well as oral disease risks associated with medications and common systemic diseases. Most older patients take multiple medications, many of which have oral complications and drug interactions of significance to dentistry. Medication therapies, oral drug and disease complications, drug interactions, and dental practice management considerations will be discussed. Hear the latest recommendations for treatment modifications and oral hygiene self-care programs.

Dr. Van B. Haywood Course Fr349 2 – 5 p.m.

Repeated on Saturday (Sa358)

Bleaching Traditions and Future Trends 2014

Tray bleaching for the past 25 years and in-office bleaching for 125 years have given us solid traditional information and developed future trends for new treatment options. A pre-bleaching examination and diagnosis is important to avoid pitfalls and poor outcomes for all types of bleaching. Understanding the application of different products is essential to guide patients for their maximum benefit. Learn the very latest evidence-based data on bleaching, from in-office to tray to over-the-counter options.

Hands-On Dental Sleep Medicine

Dental sleep medicine is an exciting and growing field. This hands-on course is for those who already have a basic understanding of dental sleep medicine principles. The pros and cons of various popular FDA approved appliances will be discussed along with guidance for selecting the right appliance for the right patient. Bite registration techniques will be discussed, and each student will take a "George Gauge" bite registration. Non-custom oral appliances will also be discussed, and you will have an opportunity to fit the Silent Sleep temporary appliance.

Note: Course Th224 or Fr249 is recommended prior to attending this course.

ADAA Assistants' Seminar Course Sa162 9:30 a.m. – 12:30 p.m.

Repeated from Thursday (Th103 & Th104) & Friday (Fr134 & Fr135)

A

Fee: \$60 Attendance is limited to 50 participants

Learning in the Round

This seminar is created especially for the dental assistant. Don't miss this hands-on opportunity to learn about new products, updated techniques and services available and share ideas with other dental assistants in this fun, small group setting. You will come away energized, with product samples for your office and the possibility of great door prizes for yourself.

Different topics are covered at each session so register early, as this small group fills up fast. Non-ADAA member dental assistants will receive a free six-month membership in the American Dental Assistants Association courtesy of the Hinman Dental Meeting. Current members will receive a special gift, so be sure to bring your ADAA membership card with you.

Preventive Equipment Maintenance

Course Sa163 9:30 a.m. - 12:30 p.m.

Repeated from Thursday (Th113 & Th114) & Friday (Fr136 & Fr137)

All Attendees

Fee: \$95 Attendance is limited to 48 participants

Learning in the Round

Service technicians from local dental supply companies will cover basic preventive maintenance and safety requirements for dental office equipment. Learn how to properly maintain the following: air compressors, vacuum systems, autoclaves, cavitrons, prophy jets, handpieces, x-ray processors and digital sensors. Also, learn how to change o-rings in a leaking air/water syringe and solve many other maintenance issues that exist in every dental office.

Disturbing Trends in Restorative Dentistry

Dr. Tom McDonald will be our moderator as five of dentistry's great leaders will be presenting this thought-provoking course.

Dr. Ronald Goldstein will discuss all ceramic crowns, zirconia vs lithium disillicate. He will also address ethical challenges while dealing with patients' needs vs patients' wants.

Dr. Gerard Kugel will present adhesive bonding systems with the emphasis on newer is not always better. He will also discuss problems with porcelain veneers in relationship to over preparation of teeth.

Dr. Michael Fling will discuss our declining lab industry in the USA due to overseas labs and CADCAM dentistry.

Dr. Jimmy Eubank will present controversies in occlusion which can lead to over treatment, as well as fractured restorations. Occlusal principals that are necessary for long term success will be discussed.

During the second half of this course, Dr. McDonald will open the floor to questions from our attendees which should result in some stimulating discussions.

Investment Strategies Immediately Prior and Post Retirement

As doctors approach retirement, their risk tolerance normally changes as they have now accumulated enough investment assets to enjoy a comfortable retirement. Not only do they become more conservative in their investment approach, doctors often become less confident in making important planning and investment decisions during the prior and post retirement years. There are many complicated decisions during these years that doctors must make correctly. This informative course is designed to help provide answers to those tough questions doctors will face as they transition through the prior and post retirement years.

Harnessing Word of Mouth in the Digital Age

The digital age has redefined the way people communicate, share and search for products and services. Seventy percent of Americans now say they look at product reviews before making a purchase. Regardless of how the healthcare decision process has changed, people still want to do business with people they feel they know, like and trust. Learn the new rules of word-of-mouth marketing and the keys to inspiring trust and referrals. Discover how to position your practice for marketing success – and which online tools will help propel word of mouth for you!

Pre-Dental Society

The Pre-Dental Society was created to support those students at college and high school levels who are considering a professional dental career. The purpose of this event is for pre-dental students to learn from dental school admission teams located throughout the Southeast and beyond. Attendees will have the opportunity to ask questions and learn about the admissions process. Current dental students will also be in attendance who can provide insight and advice regarding life as a dental student as well as tips for doing well on the Dental Admission Test (DAT). This session promises to be fun as well as informative.

Note: AGD credit will not be issued for this course.

A Young Dentist's Survival Guide to Malpractice and Risk Management

Dentists fresh out of school have not been taught how to manage risk and why it is so important in their professional lives. Yet, the day they enter practice, they become exposed to the risk of a malpractice lawsuit. This half-day course will help newer dentists, as well as the seasoned veterans, to better understand how to manage risk so they can grow their practice and thrive without having to stress over the threat of a malpractice lawsuit. It is extremely important for new dentists to learn this protection as early as possible in their career. Professional staff are encouraged to attend with their dentists.

Bleaching Traditions and Future Trends 2014

Tray bleaching for the past 25 years and in-office bleaching for 125 years have given us solid traditional information and developed future trends for new treatment options. A pre-bleaching examination and diagnosis is important to avoid pitfalls and poor outcomes for all types of bleaching. Understanding the application of different products is essential to guide patients for their maximum benefit. Learn the very latest evidence-based data on bleaching, from in-office to tray to over-the-counter options.

Simplified Implant Protocols with CAD/CAM Technology

CAD/CAM technology has improved dentistry, particularly implant dentistry, in the past 10 years. Its use can increase efficiency by decreasing chair time and lab time for many labor-intensive procedures. Intraoral scanning of coded healing abutments simplifies impression procedures, decreases the number of component "switches" and offers a digital workflow for custom abutments. Digital impression-making offers a new philosophy for restoring and fabricating implant abutments and frameworks. Discover the opportunities this new technology offers for the surgical and restorative team.

Learn to achieve long-term treatment success through definitive pocket elimination therapy, either resective or regenerative and the importance of plaque control and professional maintenance for long-term success.

SPECIAL EVENTS

THURSDAY

AmericasMart Shopping Course Th400

9 a.m. - 4 p.m.

Also available on Friday (Fr404)

Fee: \$20

AmericasMart (Building 3), home to fashion, fine jewelry and accessories wholesale showrooms, is typically only open to trade professionals, but it will open its doors to registered Hinman attendees who show a name badge and ticket.

Note: Showrooms offer limited samples of clothing and accessories. Showroom days and times vary. Showrooms accept cash, but may require minimum amounts for credit card purchases. No strollers or children under the age of 12 will be admitted.

Tickets for this event may be purchased prior to the Meeting or at the Ticket Sales desk in the Registration Hall.

Take the Hinman Shuttle from the main entrance of the GWCC to The Westin Peachtree Plaza. Walk one block north on Spring Street to the AmericasMart Building 3 main entrance located at 250 Spring Street.

"Tapas Party" Demonstration Cooking Class Course Th401

10:15 a.m. – 2:30 p.m. Attendance is limited to 30 Sur La Table – Phipps Plaza, 3500 Peachtree Road

Board bus at the main entrance of the GWCC at 10:15 a.m. for 10:30 a.m. departure.

Return bus will board at 1:45 p.m. for 2 p.m. departure.

Fee: \$79

Great cooking isn't about recipes – it's about techniques. During this class, the chef will show you how to create delicious dishes for your next tapas party. Learn the fundamental skills for a lifetime of great cooking. Interact with classmates and the instructor for a rich learning experience. Take home a packet containing class recipes, a list of equipment used, helpful notes and more.

THRIVE Health and Wellness Retreat Course Th402

11:45 a.m. – 4:45 p.m. Attendance is limited to 25 Board bus at the main entrance of the GWCC at 11:45 a.m. for 12 p.m. departure.

Return bus will board at 4 p.m. for 4:15 p.m. departure.

Fee: \$125

This retreat is devoted to your most complete wellness, which will focus on you and your best-lived life. You will take time to relax, breathe and move your body. Enjoy a whole lot of laughter and mindful munching. This all takes place at a gorgeous rooftop penthouse overlooking beautiful Atlanta. During the afternoon retreat, you will truly experience what a life of wellness is like.

Note: Dress in layers for inside and outside activities. Wear comfortable loose fitting or stretch clothing, socks and soft-soled shoes for light exercise. Keynote Session with Dr. Benjamin Carson, Sr. Course Th403 5:30 – 7:30 p.m. GWCC, Sidney Marcus Auditorium No Fee

Join us for the official opening ceremony of the Hinman Dental Meeting! Doors and cash bar open at 5:00 p.m. with a musical prelude until 5:30 p.m. The Keynote Session introduces the Meeting's Featured Clinicians and Keynote Speaker, Dr. Benjamin Carson, Sr.

Benjamin S. Carson, Sr., M.D., had a childhood dream of becoming a physician. Growing up in a single-parent home and being challenged by dire poverty, poor grades, a horrible temper and low self-esteem, he appeared to preclude the realization of that dream, until his mother, with only a third-grade education, challenged her sons to strive for excellence. In July of 2013, he retired from Johns Hopkins School of Medicine, where he directed pediatric neurosurgery at the Johns Hopkins Children's Center for more than 25 years. Dr. Carson is currently a Fox News contributor.

In February 2008, Carson was presented with the Ford's Theatre Lincoln Medal by President Bush at the White House. In June 2008, he was awarded the Presidential Medal of Freedom by the President, which is the highest civilian honor in the land.

Carson is president and co-founder of the Carson Scholars Fund, which recognizes young people of all backgrounds for exceptional academic and humanitarian accomplishments. The Fund has awarded more than \$5 million dollars to more than 5,000 scholars. Carson has been married for over 37 years to his wife, Candy, and is the father of three sons. His mother, Sonya Carson, who made all this possible, has lived to see his success.

Marvin C. Goldstein Memorial Lecture

This session is sponsored by the Atlanta chapter of the Alpha Omega International Dental Fraternity in cooperation with the Thomas P. Hinman Dental Meeting. The Fraternity has dedicated this lectureship in memory of Dr. Marvin C. Goldstein.

KEYNOTE PRIZES

All paid registrants are eligible for, and must be present to win, two sets of Delta Air Lines tickets to anywhere in the continental United States. Two sets of two roundtrip tickets will be given away. One set will be awarded to a dentist and the other set to an auxiliary. Deposit the appropriate ticket (included in your registration packet) in the hopper when entering the auditorium beginning at 5:00 p.m. for a chance to win. The Keynote Session begins promptly at 5:30 p.m. Tickets must be deposited in the hopper prior to 5:25 p.m.

Please read Thursday's description for details (page 60).

Hinman Luncheon with Ms. Cynthia Good Course Fr405 11:45 a.m. Cocktails | 12 - 1:30 p.m. Luncheon The Ritz-Carlton, Atlanta

Board bus at the main entrance of the GWCC at 11:15 a.m. for 11:30 a.m. departure.

Return bus will board at 1:30 p.m. for 1:45 p.m. departure.

Fee: \$65

Cynthia Good is the founder and CEO of Little PINK Book, America's #1 digital platform for career women. Little PINK Book is the online evolution of PINK magazine, founded by Good in 2005. In addition to the daily e-notes, proven to help career women advance, Little PINK Book's ventures include two highly successful national conference series – their Spring Into Ownership event for entrepreneurs and the Fall Empowerment series, featuring top women from Corporate America. Cynthia is a recognized expert in women's advancement and entrepreneurship. She has written six books and has a weekly TV segment on CBS Atlanta, where she discusses news pertinent to women.

Note: Business casual attire is required.

Atlanta Brews Cruise Course F406

1:30 – 6:30 p.m. Attendance is limited to 40 Board bus at main entrance of entrance of GWCC at 1:30 p.m. for 1:45 p.m. departure. Return bus will board at 6 p.m. for 6:15 p.m. departure.

Fee: \$55 (Attendees must be 21 to participate in this event)

There's no better, or safer, way to taste the beer made right here in Atlanta than on this tour. Visit one of the largest craft breweries in the country, SweetWater Brewing Company, brewer of several tasty beers. Tour the oldest brewery in Georgia, Red Brick Brewing. Finish the day in a local brewpub, 5 Seasons Brewing, where you will sample some of Atlanta's favorite beers and enjoy some delicious snacks. Best thing of all, Brews Cruise does all the driving!

Wine Tasting & Seminar with Mr. Michael Gallant Course Fr407 | 3 – 5 p.m. Omni Hotel, South Tower, Atrium Terrace

Fee: \$55

The wine tasting this year will be a survey of multiple wine styles and wine regions. It will begin with some exciting sparkling wine and close with a port styled wine. In between, be prepared to try some exciting white wines that are crisp, clean and delicious. The tasting will also feature several red wines including a bold California red, and a supple, balanced, French red. As always, commentary from our regular "wine guy," Michael Gallant, is a favorite part of the program.

Dental Student Networking and Reception Course Fr408 | 4 – 5 p.m. All Dental Students GWCC No Fee

Join other dental students and Hinman member dentists for beer, wine and light appetizers. Take advantage of the opportunity to hear a panel share stories of topics not learned in school: how and where to find a practice, how to hire a staff, the benefits of organized dentistry and the chance to ask other questions of successful practicing dentists. Register in advance to ensure a spot in this event.

The indicates that transportation to this event is included in the ticket fee.

SPECIAL EVENTS

FRIDAY

Back to the '80s Auxiliary Reception 7 – 11 p.m.

Omni Hotel, Grand Ballroom

Break out your favorite '80s attire and join us at the newly redesigned auxiliary party! Enjoy a live band, dancing, arcade games, a photo booth and great food. Dressing in your '80s best is encouraged. A costume contest will be held at 8 p.m. and three cash prizes will be awarded to the winners. Each attendee, 21 years of age or older with identification, will receive two drink tickets redeemable for complimentary beer or wine between the hours of 7 and 9 p.m. Other beverages will be available for purchase and cash bars will remain open until 11 p.m. The buffet

will open at 7 p.m. All paid auxiliaries are eligible to win \$1,000 in American Express gift certificates. Deposit the appropriate ticket into the tumbler at the Auxiliary Reception for a chance to win. The drawing will be held at approximately 9:15 p.m. You must be present

to win. Hygienists, assistants, laboratory technicians, office staff, residents and students may bring one adult guest. Shuttle bus transportation will be provided from 9:30 – 11:30 p.m. to hotels within the Hinman block (see page 70).

Dentist Reception with Mo' Sol! 7:30 – 11 p.m. Omni Hotel at CNN Center, International Ballroom

Enjoy great food, cash bars and a live band, **Mo' Sol**, at the 2014 Hinman Dentist Reception. Mo' Sol features classic Motown and soul with lots of current R&B dance music. This eight-piece band offers male and female lead

vocalists. Backed by a rock solid rhythm section and surrounded by some of Atlanta's finest vocalists, Mo' Sol keeps the dance floor packed from beginning to end.

Mo' Sol

Updated frequently, the band's songlist covers everything from the old school soul of Wilson Pickett, Ray Charles and The Supremes to modern hits from Mary J. Blige, Justin Timberlake and Alicia Keys – with some '80s and classic rock added for good measure.

An elegant buffet reception with desserts and coffee are included. Dentists from all registration

categories, including dental students, with one adult guest, are cordially invited to attend this fabulous evening. Coat and tie for gentlemen and cocktail attire for ladies. Dentists must present the appropriate ticket for entrance. Ticket is good for each dentist and one adult guest.

Shuttle bus transportation will be provided from 9:30 – 11:30 p.m. to hotels within the Hinman block (see page 70).

Dentist Reception Prizes

VACATION #1:

Paradisus Punta Cana Resort, Dominican Republic

Located right on the idyllic Punta Cana Beach, the Paradisus Punta Cana Resort is the perfect choice for a Caribbean vacation thanks to the eternal summer climate, beautiful beach, extensive and

comfortable facilities, lush gardens and tropical mangroves, wide range of activities and entertainment and quality of services. The resort features five swimming pools, Yhi Spa, golf course, casino and a dozen restaurants.

This prize trip includes airfare for two to the Dominican Republic and accommodations at the Paradisus Punta Cana Resort. Total monetary value of this prize not to exceed \$5,000.

VACATION #2:

Stowe Mountain Lodge, Vermont

This luxurious New England resort draws on the architectural tradition of turn-of-the-century summer camps created by the great families of New England. The lodge's exterior features a picturesque facade of woven timber and

shingles designed from the natural harmony found in nature. All rooms are framed by oversized windows and outdoor balconies, allowing guests to take full advantage of the remarkable mountain landscape of Mt. Mansfield and Spruce Peak. This prize trip includes airfare for two to Stowe and accommodations at the Stowe Mountain Lodge. Total monetary value of this prize not to exceed \$5,000.

Note: Check website for more details and restrictions.

Work-Life Balance: It Can Be Done!

Please join your fellow women dentists for a networking reception. There will be a panel of women dentists active in the Hinman Dental Society from different ages and experiences to share how they have tried to achieve the work-life, balance. Encourage your female colleagues to join us to share tips on building a dental practice, balancing dual careers, family life challenges, professional advancement and even finding time for yourself. Light refreshments will be served.

TECHNICAL EXHIBITS

With more than 425 exhibiting companies on hand, be sure to visit the Hinman Technical Exhibits. Here you'll be able to see and source the latest the industry has to offer. Save time and plan in advance which exhibitors to visit on hinman.org/Exhibits.aspx. Just click on the 2014 interactive floor plan to learn the locations.

LOCATION: GWCC Halls A1 - A3

HALL HOURS:

Thursday, March 27 9 – 11 a.m. *Dentist-Only Hours NEW THIS YEAR* 11 a.m. – 5 p.m.

Friday, March 28 9 a.m. – 6 p.m.

Saturday, March 29 9 a.m. – 3 p.m.

TECHNICAL EXHIBITS HALL FEATURES

Hinman Treasure Quest is back by popular demand. This exciting game offers the chance to win up to \$500 in cash! The game board is located in *The Hinman Exhibitor* opposite the Hinman Dining Dollars. On the card is the list of participating exhibitors. Visit those exhibitors, have them stamp your game card and deposit the completed card in the raffle drum found in the Cyber Center (back of the 400 aisle).

Wheel of Chance – Spin the wheel and win cash and prizes up to \$100 in value! Attendees exchange their tickets (found in the registration packet) to spin the Wheel of Chance. Spinning times are included in the Schedule of Events (see next page).

Redeem **Hinman Dining Dollars,** found in the *The Hinman Exhibitor,* at the Hinman Eatery or in the Exhibit Hall concessions.

Messages to Our Military

Hinman and Bennett Graphics have joined forces again this year to give you the opportunity to thank the men and women who defend our freedom, with a hand-written note. Visit the Messages to Our Military booth #137 and complete a postcard of thanks.

Or, bring a stack of already written notes from your office, staff and patients with you.

Last year's efforts from attendees produced nearly 2,500

postcards that were sent overseas. Pictured at left are two soldiers from USO Leatherneck in Afghanistan reading the postcards that were sent.

Earn free CE credit in our **Table Clinics** area. Table clinics are scientific table-top presentations that are approximately 10 minutes each in length and are presented by volunteers associated with the dental community. Receive a code for one hour of continuing education credit for each hour spent in the table clinics area. Be sure to pick up a time stamped card upon entering the area and stop back by at the end of the hour to get your CE code. Enter behind the 1800 aisle.

PRE-REGISTRATION

- Pre-register to avoid waiting in line and to guarantee a seat in General Attendance courses.
- There are two ways to register:
 - 1) Register online at www.hinman.org.
- 2) Mail a registration form to:

The Thomas P. Hinman Dental Meeting

- 6840 Meadowridge Court
- Alpharetta, Georgia 30005
- Registrations cannot be accepted by fax or phone.

Only one registration form is necessary for each office, including dentists, auxiliaries and family members. The registration form can be copied to accommodate additional registrants. Hinman accepts Visa, MasterCard, American Express or a check for either preregistration or on-site registration.

Attendees whose pre-registration forms are postmarked or received online by **Thursday, February 27, 2014** will receive their registration badges and course tickets in the mail. Registrants should bring all of these materials to the meeting. Those who register after February 27 must pick up their materials on site.

- <u>General Attendance</u> tickets will be in pre-registration packets for those who have pre-registered. A limited number of tickets may also be available at the door of the lecture room until approximately 10 minutes after the class begins.
- <u>Registered Attendance</u> tickets will be in registration packets for those who have pre-registered or can be purchased from Ticket Sales in the Registration area.

Pre-registration Incentive

All attendees who register by February 27, 2014, are eligible to win a three-night hotel stay during the 2015 Hinman Dental Meeting.

BADGE HOLDER COLORS

Blue	Dentists
Green	Hygienists
Violet	Assistants, Office Staff, Laboratory Technicians (all other paid registrants)
Yellow	Dentist Spouse, Student Assistant, Student Hygienist, Student Laboratory Technician, Auxiliary Spouse (non-paid registrants)
Red	Exhibitors
Clear	Guests, Press/Media, Children/Youth (0 – 20)

ON-SITE REGISTRATION HOURS

(Location: GWCC Main Entrance)

Wednesday, March 26

Thursday, March 27

Friday, March 28

Saturday, March 29

1 p.m. – 5 p.m.
8 a.m. – 5 p.m.
8 a.m. – 5 p.m.
8 a.m. – 2 p.m.

REGISTRATION FEES	On or before 2/27	After 2/27
Dentists* (includes ADA life)	\$170	\$225
Retired Dentists** Residents & Dental Students (no CE)	\$0	\$0
Retired Dentists*** (earn CE)	\$50	\$50
Military Dentists	\$170	\$170
Dental Assistants	\$65	\$75
Dental Hygienists	\$65	\$75

Spouses/Children/Youth (no CE)	\$0	\$0
Guests (on site only, no CE)	_	\$75

*Dentists who are in their first year of practice may attend the meeting for a fee of \$85 (\$115 after 2/27). Dentists in their second year of practice pay \$130 (\$170 after 2/27). A copy of an ADA membership card or other credentials with the year of dental school graduation must be submitted with the registration form for a reduced fee.

Dentists requesting the retired dentist category with a complimentary (\$0) registration fee should contact QMS to request a retired dentist form. QMS can be contacted by phone (866) 248-2883 or email hd@qmsreg.com. **No CE credit is earned in this category.

***Retired dentists who need to earn CE hours should register in the retired dentist with CE category and pay the \$50 registration fee. Individuals requesting the retired dentist with CE category should contact QMS to request a retired dentist form. QMS can be contacted by phone (866) 248-2883 or email hd@qmsreg.com.

CHILDREN

Children (under the age of 12) and Youth (ages 12 – 20):

- Must register to attend the meeting
- Can register for age-appropriate events and visit the exhibit hall
- Are not permitted in lectures
- Strollers are not allowed in the exhibit hall

Badge holders, programs and *The Hinman Exhibitor* will be available on site at these locations:

- Georgia World Congress Center (GWCC)
 - 1) Main entrance
- 2) Building A, Level 4 entrance
- 3) Building A, Level 3
- 4) Building B, Level 4
- Omni Hotel at CNN Center
- 1) South Tower Lobby
- 2) North Tower, M2 Level
- 3) North Tower, M4 Level

GENERAL INFORMATION

CANCELLATION POLICY

Cancellation requests must be postmarked by Wednesday, March 26, 2014. No refunds will be made for cancellations requested after registration opens on the first day of the meeting, which is Thursday, March 27, 2014.

In order for the refund request to be considered, the information must include the attendee's name and address in writing, the original registration badge and any course tickets. All requests must be postmarked by March 26, 2014 and mailed to:

The Thomas P. Hinman Dental Meeting 6840 Meadowridge Court Alpharetta, Georgia 30005

TICKET RETURN

For those attendees unable to attend registered courses or special events, tickets may be resold to the Ticket Sales counter located in the registration area only if the course or special event is sold out. **Tickets may only be sold prior to the event.**

GUEST POLICY

All guests must pay a \$75 registration fee, complete a guest registration form and may register on site only. Guests do not have to be accompanied by a registered attendee. Registering enables guests to visit the exhibit hall and buy tickets for courses or special events. Guests do not receive continuing education credits.

The Thomas P. Hinman Dental Meeting has carefully selected all lecturers, exhibits and exhibitors to present at the 2014 Hinman Dental Meeting. The contents of any particular program, lecture, exhibit or handout are the responsibility of the respective lecturer or exhibitor presenting such material. The Hinman Dental Society does not endorse or approve any materials so presented.

ACCREDITATION & CONTINUING EDUCATION CREDIT

The Hinman Dental Meeting utilizes a computerized accreditation process. Attendees who register for courses will receive a ticket listing the course and speaker for each class. Hinman provides one hour of credit for each hour of lecture, unless otherwise indicated under the course description.

Computerized continuing education certificates can be printed at one of two locations during the meeting:

- 1) Exhibit Hall, Cyber Café: THU 11 5, FRI 9 6, SAT 9 3
- 2) Registration Hall: SAT 1 5:30 only

After the meeting, continuing education certificates can be printed from www.hinman.org for **six months** at no charge.

Academy of General Dentistry

Approved PACE Program Pro FAGD/MADG Credit 6/1/2011 to 5/31/2014 Provider ID#219082

Academy of General Dentistry

Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement.

In order to meet the AGD deadline for CE submission, AGD members should process their CE no later than April 25, 2014.

HANDOUTS

In an effort to be more environmentally friendly, we will not print handouts for the meeting. In advance of the meeting, we will provide course materials to access online which can be downloaded and printed. We will make all handout information available for all courses for which we receive materials from the speaker.

Registration confirmations will be sent in advance. Included with the information will be a user name and password for accessing specific handout materials and final course room locations. Please review this handout information in advance of the meeting and print, if needed. Handouts will be available March 17 through May 9. Plan ahead, print the handouts and get the most out of the courses!

ACCOMMODATIONS & TRAVEL INFORMATION

The designated hotel service for the 2014 Thomas P. Hinman Dental Meeting is **onPeak.** No other housing organization has been authorized to represent Hinman for the 2014 Meeting. Specially discounted room rates have been secured in several downtown, midtown and Buckhead hotels. Representatives from onPeak are ready to assist you with special requests relating to hotel rooms, multiple room blocks, suites, meeting space and food and beverage requirements.

Patronage of the Hinman hotel program is appreciated. Booking your reservations through the Hinman hotel service benefits all Hinman participants and provides the lowest hotel rates possible.

Select one of the following methods to make your hotel room reservations:

- 1) Call onPeak at (800) 243-1581.
- 2) Book your room requests online at www.hinman.org. Confirmations of hotel room selections are given instantaneously.
- 3) Email Hinman@onpeakevents.co.

To avoid duplications in the booking process, please select only one of the above-recommended methods.

Win a three-night hotel stay during the 2015 Thomas P. Hinman Dental Meeting.
Only those individuals making reservations through onPeak by February 27, 2014, are eligible.

In addition, onPeak can assist with making car rental reservations. Discounted airline and car rental rates are available for Hinman attendees. When speaking to an onPeak agent, please reference the AVIS Discount #D256901 or Enterprise/National Discount #XZL0302 to receive lower rates.

rinman shuttle system provided.

For airline reservations, Delta Air Lines is pleased to offer special discounted airfares for Hinman attendees. To take advantage of the special rates, call Delta Meeting Network® Reservations at (800) 328-1111, Monday - Friday, 7:30 a.m. - 7:30 p.m. (Central Standard Time) and refer to File Meeting Code NMGL8. Travel agents also may use this code when booking your reservation.

READY TO HEAD TO THE AIRPORT? **NEED A PLACE TO STORE YOUR BAGS?**

In order to expedite the check-in process, it is recommended that attendees pre-enroll, although it is not required. You can do so by sending an email to GWCC@airportbags.com to request the appropriate forms. Please make sure to reference the Hinman Dental Meeting in the subject line.

TRANSPORTATION & PARKING

Hinman Shuttle

A complimentary shuttle bus system is available for Hinman attendees between select downtown hotels and the GWCC. See the list of participating hotels to the left. The shuttle schedule will be available online approximately two weeks prior to the meeting, will be printed in the on-site Hinman Program and will be posted in each participating hotel.

MARTA (Rapid Rail System)

Call (404) 848-4711 or visit www.itsmarta.com for details on schedules and route information for MARTA, the Metropolitan Atlanta Rapid Transit Authority. Ride MARTA directly into the Omni/Georgia Dome/GWCC Station on the East/West line from numerous locations in the city, including the airport. Daily parking is available at most MARTA stations.

Go Green in '14; take Rapid Transit!

marta 🔪

Buy a one-way MARTA ticket to Hinman

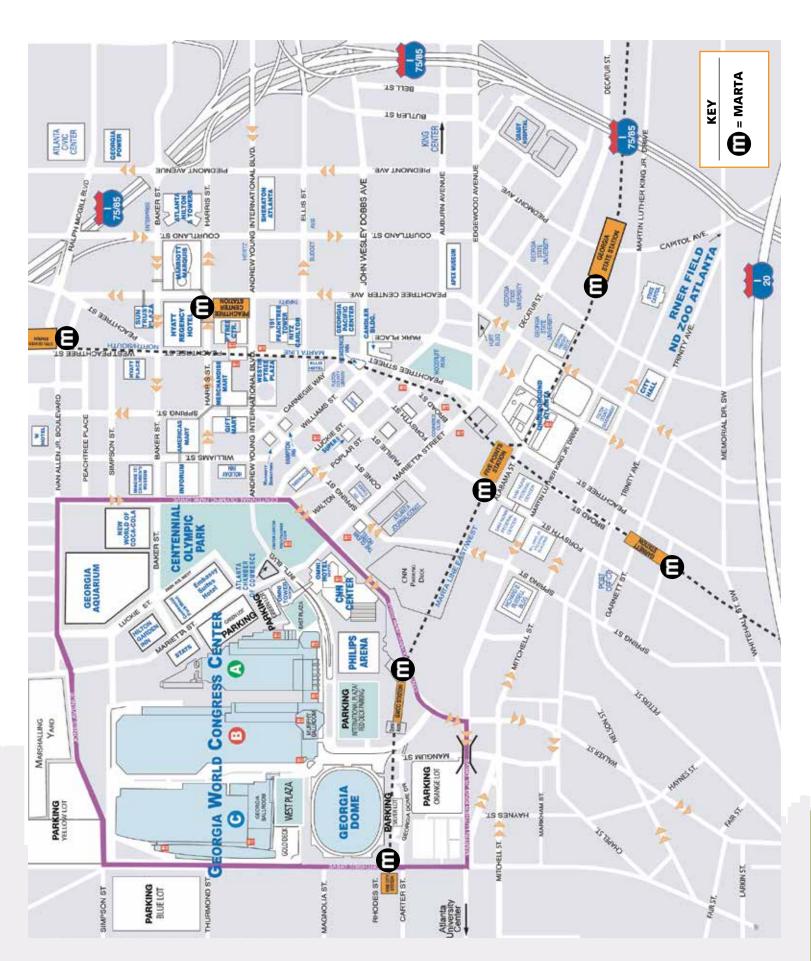

and pick up a *free return ticket* for the ride home (while supplies last). Avoid traffic, save time and money by taking MARTA. The rail system picks up at many locations throughout the city and drops off at the GWCC Station. The airport stop is inside the Atlanta airport and the stop in Peachtree Center is near many hotels in the Hinman block. For a map, go to the housing page on our website. To receive a complimentary return ticket, visit the Messages to Our Military booth in the Exhibit Hall, booth #137 with your receipt, ticket or Breeze Card. We will give away 102 return tickets daily, so visit the hall early to secure a free trip!

GWCC Parking

GWCC area lots \$10 per day for surface parking (Orange, Blue, Silver, Yellow Lots)

> \$10 per day for covered parking (Red and Gold Lots)

These parking lots located around the GWCC are indicated on the map of downtown Atlanta on the next page. You can now order your parking in advance online and ensure you have the space you need. Please visit www.gwcc.com/directions to reserve your parking space.

Can I register over the Internet?

Yes, beginning November 12, 2013, visit www.hinman.org to register online.

May I fax my registration form?

No, registration forms will not be accepted via fax.

Registration forms must be mailed to: The Thomas P. Hinman Dental Meeting 6840 Meadowridge Court Alpharetta, Georgia 30005

or register online at www.hinman.org.

How do I make a change on my registration form after mailing it in?

Call QMS, the Hinman registration service, at 866-248-2883.

What if I have not received my registration packet, my badge was not included or my name was misspelled?

Call QMS, the Hinman registration service, at 866-248-2883.

What is the guest policy?

Anyone who is not included in the registration categories listed on page 68 is considered a guest. Each guest must pay a \$75 registration fee, complete a guest registration form and can register on site only. The guest does not have to be accompanied by a registered attendee.

Registering enables guests to visit the exhibit hall and buy tickets for courses or special events. Guests do not receive continuing education credits.

What is the cancellation policy?

Cancellations must be postmarked by Wednesday, March 26, 2014, and must be submitted in writing. In order for your refund request to be considered, you must include the attendee's name and address in writing, the original registration badge and any course tickets. No refunds will be made for cancellations requested after registration opens on the first day of the meeting, Thursday, March 27, 2014. Please see page 69 for more information.

What is the difference between Registered and General courses?

A fee is charged for Registered Attendance courses. General Attendance courses are free of charge with ticketed, priority seating offered to those who pre-register. It is strongly recommended that you register for General Attendance courses.

Where is the Hinman Dental Meeting held?

Georgia World Congress Center 285 Andrew Young International Blvd., N.W. Atlanta, Georgia 30313-1591

Which are the closest hotels?

See the map on page 71 to find the location of various hotels. Remember to look for participating downtown hotels that are on the Hinman shuttle route.

Where can I find Hinman shuttle information?

To find out which hotels are located on the shuttle route, see page 70 of this book and look for the bus symbol. Specific shuttle schedules will be printed in the on-site Hinman Program and will be posted in each participating hotel lobby. The routes will also be available online at www.hinman.org/shuttleinfo.aspx two weeks prior to the meeting.

How do I make hotel, airline and rental car reservations?

Call onPeak at 800-243-1581 or visit www.onpeak.co/hinman2014

Which MARTA stop do I use to get to the GWCC?

Dome/GWCC on the East/West line. Call MARTA at 404-848-5000 or visit *www.itsmarta.com* for detailed schedules. See page 70 for details.

How can I obtain CE certificates?

See page 69.

What are the future dates of the Hinman Meeting?

March 26–28, 2015 March 17–19, 2016 March 23–25, 2017

The Thomas P. Hinman Dental Meeting 33 Lenox Pointe Atlanta, Georgia 30324-3172
